• WORK EXPERIENCE

15/03/2026 - 22/05/2026 - BRASOV, ROMANIA

STUDENT TRAINEEAEROPONIX ROBOTICS

- Assembled , programmed and wired various robotic systems and electronic modules.
- Used basic tools and multimeters for building and troubleshooting prototypes.
- Tested circuits and sensors to make sure the systems worked correctly.

• EDUCATION & TRAINING

30/09/2024 - Current - BRAȘOV, ROMANIA

ELECTRONICĂ APLICATĂ TELECOMUNICAȚII SI TEHNOLOGIA INFORMAȚIEI- UNIVERSITATEA TEHNICA BRASOV

- Relevant coursework and practical labs: Circuit Analysis, Electronic Devices, and C++ Programming.
- Acquired hands-on experience using oscilloscopes, multimeters, and breadboards for testing circuit prototypes.

• VOLUNTEERING

20/03/2025 - CURRENT Brasov

BEST Brasov Collaborated in multidisciplinary teams to organize technical and academic events for students. Managed event logistics and task prioritization under tight deadlines. Developed strong communication and soft skills through active teamwork and project coordination.

• PROJECTS

04/02/2026 - CURRENT

Digital Automotive Parameter Monitoring System using ESP32 Designed and built a digital system to monitor real-time vehicle parameters using an ESP32 microcontroller.

Integrated various sensors to collect data and displayed the results on a digital interface.

19/11/2025 - 02/01/2026

HotWheelsCC My very first Android project: a digital catalog dedicated to Hot Wheels enthusiasts.

05/03/2026 - 23/04/2026

- Successfully disassembled, inspected, and completely rebuilt a Wankel rotary engine
- Developed a deep, practical understanding of mechanical timing, compression testing, and complex thermal/fluid dynamics.
